Create Account In SendGrid

The screenshot shows the Twilio SendGrid dashboard interface. On the left is a sidebar menu with the following items: Ahsan M (user profile), Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area has a light blue header with the text 'Welcome, Ahsan!' and a sub-header 'To get up and running quickly, please follow the steps outlined below.' Below this is a dark blue banner that reads 'Send your first emails with Twilio SendGrid'. The main section is titled 'Create a sender identity' and includes the following text: 'Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' There are two buttons: 'Create a Single Sender' (highlighted in blue) and 'Authenticate a domain instead'. To the right, there is an explanatory text: 'Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.' Below this text is a diagram showing an email header: 'Your Business' as the 'from' address and '<jane.doe@your_business.com>' as the email address. An arrow points from the text 'Your sender identity is the "from" email address' to the 'Your Business' part of the header.
